linkedin.com/anshul-verma | github.com/AnshulVermaQ

AI/LLM evaluation engineer and full-stack developer (React, Node.js) with hands-on experience across AI-agent benchmarking, RESTful API design, and production web apps serving 10k+ users. 1200+ LeetCode problems solved; final-year CS student at VIT Bhopal.

Experience

Software Engineer (Contract-based) | Handshake AI

July 2026 - Present

- Design AI-agent evaluation tasks measuring multi-step reasoning, debugging, historical-state reconstruction, and secure software repair.
- Build realistic environments, reference solutions, and adversarial test suites to evaluate whether frontier AI models solve problems correctly rather than relying on shortcuts or memorized outputs.
- Analyze agent failure modes, improve task difficulty and fairness, and validate results through Docker-based automated pipelines.

Software Engineering Intern | AfterQuery

May 2026 - July 2026

- Contributed to a terminal-based benchmarking project evaluating AI/LLM performance on real-world command-line tasks.
- Worked extensively in Linux environments, writing and running automated shell scripts to test and validate terminal-based tasks.
- Designed test scenarios and automated scripts to measure model accuracy, latency, and reliability.

Full Stack Developer Intern | SEWASTACK

Aug 2025 - Dec 2025

- Developed full-stack applications using React.js and Node.js, improving user interaction and reducing load time by 25 percent.
- Designed and integrated RESTful APIs serving dynamic frontend data with optimized response handling.
- Optimized MongoDB/PostgreSQL queries, reducing query execution time by 30 percent.

Fossee Internship | IIT BOMBAY

Feb 2025 - May 2025

- Cross-version testing of eSim across 4+ Ubuntu versions, identifying and resolving critical compatibility issues.
- Improved Windows compatibility by fixing dependency and permission issues, enhancing onboarding experience.
- Contributed to open-source EDA tools (KiCad, Ngspice), improving usability for end users.

Web Development Intern | LETSGROWMORE, LGMVIP

Mar 2024 - April 2024

- Developed scalable web applications handling 10k+ users on the platform.
- Enhanced robust backend services with Node.js and Express.js, integrating RESTful APIs with MongoDB/MySQL databases to support dynamic web applications.
- Connected UIs with backend services; optimized for performance and user flow.

Education

VIT Bhopal University, Integrated M.Tech in Computer Science

Aug 2022 – March 2027

- **Coursework:** Data Structures and Algorithms, Computer Networks, Database Management Systems

Amalaha Public School , Class XII (MP Board)

July 2021 – March 2022

- **Percentage:** 90

Technical Skills

Programming Languages: Java, Python, JavaScript

Frameworks & Libraries: Spring Boot, ReactJS, NodeJS, NextJS

Databases: MongoDB, MySQL, PostgreSQL, Oracle

Technologies: HTML5, CSS, Tailwind, RESTful APIs, Docker, Linux, Ubuntu

Tools & IDEs: Git, GitHub, Postman, Visual Studio Code, IntelliJ IDEA, CPanel

Cloud & Deployment: Railway, Vercel, Render

Core Concepts: JWT Auth, OAuth 2.0, Redis, System Design, Microservices, Networks

AI Agents & Evaluation: AI Agents, LLM Evaluation, Benchmark Design, Adversarial Testing, Prompt/Task Design, Model Failure Analysis, AI Safety Evaluation

Projects

Refyn AI — AI-powered code review platform for automated PR analysis, bug detection, and code quality insights. | *Technologies:*

ReactJS, Tailwind CSS, NodeJS, MongoDB

Live GitHub

E-Learning Platform — Full-stack LMS supporting 1,000+ users with optimized API state management, reducing redundant calls by 40 percent. | *Technologies:* *ReactJS, NodeJS, Tailwind, RTK Query, MongoDB*

GitHub

Social Media App — Developed a real-time social platform with media handling and user interactions using Appwrite for scalable backend services. | *Technologies:* *ReactJS, Tailwind, Appwrite, RESTful APIs*

GitHub

Billing Software — Role-based billing system managing 500+ transactions with secure APIs, reducing manual errors by 25 percent. | *Technologies:* *Spring Boot, ReactJS, Bootstrap, MySQL*

GitHub

Achievements

1200+ LeetCode & 900+ GFG problems solved • LeetCode Rating 1577 (Top 26.6%) • Rank 5746 • Open-source contributor
IIT Bombay
